* Goods destined for oversea countries are largely transferred from one State to another for transshipment to the oversea country. In this table such goods are shown against the State from which they were finally despatched from the Commonwealth. The exports from New South Wales and Victoria—the States in which transshipments are chiefly made—are thus inflated by the inclusion of goods consigned from other States. Owing to the discontinuance of the records of interstate trade from the 13th September, 1910, adjustment on account of transshipments can no longer be made. Taking the annual average of the transshipments recorded during the years 1907, 1908, and 1909, the New South Wales figures include exports of other States amounting to £3,036,672 net per annum, and Victoria £1,003,714, which were originally despatched as follows:—From Queensland, £1,376,484; South Australia, £1,018,592; Western Australia, £8,884; and Tasmania, £1,636,426.
